

Pergola

Components :

If you have ordered a “custom made” pergola the same principles should apply. Please contact us if you are experiencing any difficulties.

1. Dig 4 holes in the ground for posts to be set 8ft apart. (back posts) and 5ft apart (sides) in the other direction.
2. Fix 2 posts to **A** 20” in from the end. (NB : posts are on the outside of **A**)
3. Back and front frame level.
4. Fix 7 **B** spaced equally on top of **A**.
5. Fix **C** in corner positions
